Accessories

B10T Bench Adapter

The UnoLiner B10T Bench Adapter, specifically designed for UnoLiner's two-way locking frame benches. These benches, such as the CRS4600T and CRS6000T, feature extra profiles on top for adapter and accessory placement. The B10T locks into the top profile, keeping the side profiles completely free for drive-on ramps, pulling towers, down pull adapters, other Accessories and repair equipment.

Features

- Bench adapter for two-way locking benches
- Compatible with all UnoLiner chassis clamps
- Easy to mount on top profile
