Accessories

W50 Manual Lift

The UnoLiner W50 Manual Lift fixes a scissor lift to its bench frame. In combination with the *W10 Bench Wheel Set*, this bracket provides mobility for UnoLiner's *Drive-On* and *Roll-Over* chassis straightening benches. This makes moving the bench to another spot in the workshop fast and easy. Transporting to another location also becomes an option with this combination, because a secured bench and lift can be loaded onto a truck.

Features

- For Drive-On and Roll-Over benches
- Secures lift to bench frame for transport
- Simple and easy to use
- Strong and durable
- Combine with W10 Wheel Set for mobility
