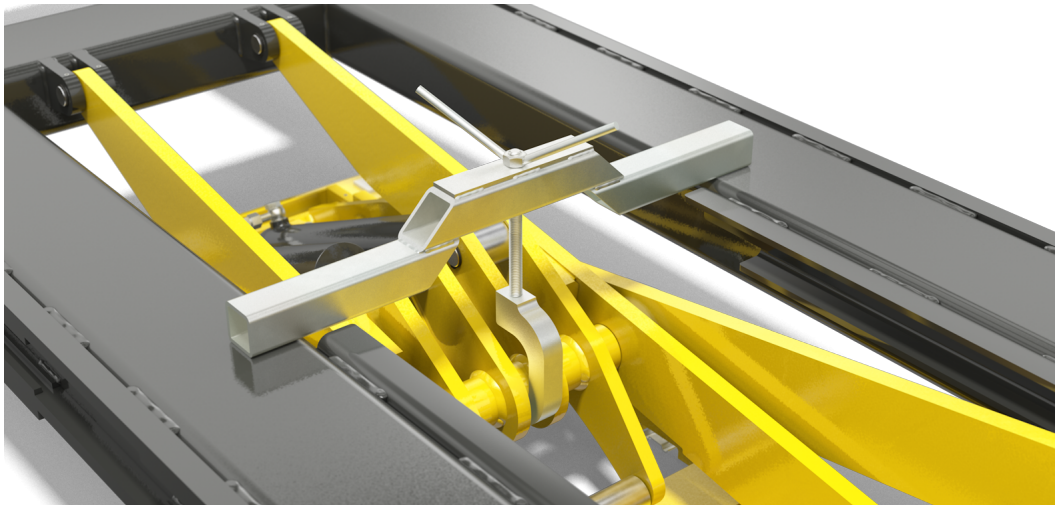
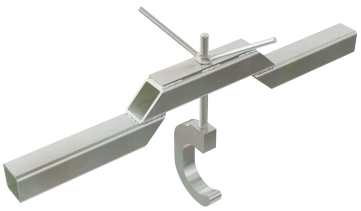
Accessories

W60 In-Ground Manual Lift





The UnoLiner W60 In-Ground Manual Lift fixes a scissor lift to its bench frame. This bracket is specifically designed to provide mobility for UnoLiner's *In-Ground* chassis straightening benches by lifting the scissor lift out of the ground. Attach the *W20 Wheel Set* for free movement around the workshop. Transporting to another location also becomes an option with this combination, because a secured bench and lift can be loaded onto a truck.

Features

- For In-Ground benches
- Secures lift to bench frame for transport
- Simple and easy to use
- Strong and durable
- Combine with W20 Wheel Set for mobility
