

The UnoLiner CRS4000-DO Bench is a drive-on chassis straightening bench with a lifting capacity of 3000 kg and a bench frame length of 4 meters. This is the universal car chassis straightening and collision repair bench for cars, SUVs, crossovers, MPVs, and light commercial vehicles. The CRS4000 is an ideal straightening, alignment, and collision repair bench, which can also be used as a multifunctional vehicle maintenance and general repair worksite. This bench offers optimum auto body panel repair and chassis frame alignment at a competitive price. UnoLiner accessories fit on all UnoLiner benches, contributing to a cost-efficient workshop.
