In-Ground Benches

CRS4000 In-Ground

The UnoLiner CRS4000 In-Ground is a collision repair chassis straightening bench. Mounted level with the workshop floor. Suitable for cars, SUVs, crossovers, MPVs, and light commercial vehicles. The CRS4000 In-Ground is an ideal straightening, alignment, and collision repair bench, which can also be used as a multifunctional vehicle maintenance and general repair worksite. Its length of 4 meters, width of 1 meter, and lifting capacity of 3000 kg makes it the perfect addition to any car body repair workshop.

Features

- 3 ton lifting capacity
- Level with the ground in its lowest position
- Multiple-angle 10-ton pulling ability
- Interchangeable UnoLiner accessories
- Mechanical and hydraulic safety systems
