In-Ground Benches

CRS5500 In-Ground

The UnoLiner CRS5500 In-Ground is a chassis straightening bench, mounted level with the workshop floor, suitable for repairing cars of all sizes, commercial vehicles, pickup and utility trucks, MPVs, and heavy-duty all-terrain vehicles. The built-in L45 double scissor lift gives this bench an impressive lifting capacity of 5000 kg. This straightening, alignment, and collision repair bench also serves as a multifunctional vehicle maintenance and general repair worksite. With its length of 5.5 meters and width of 1 meter, the UnoLiner CRS5500 In-Ground frame machine is perfect for car body repair workshops offering full chassis straightening and body repair capabilities for vehicles of various types and sizes.

Features

- 5 ton lifting capacity
- Level with the ground in its lowest position
- Great for large vehicles
- Interchangeable UnoLiner accessories
- Mechanical and hydraulic safety systems
