Roll-Over Benches

CRS3000-RO Quick Bench

With its length of 3 meters and width of less than a meter, the UnoLiner CRS3000-RO Quick Bench fits in any car body repair workshop. Its lifting capacity of 3000 kg and maximum bench height of ca. 1.3 meters enables it to offer the complete functionality of a full-size chassis straightening and collision repair bench. RO stands for roll over, which means the drive-on ramps have been omitted. When placed in ground, the CRS3000-RO provides maximum space-saving efficiency.

Features

- Competitive, compact, complete
- No compromise, fully-fledged straightening bench
- Multiple-angle 10-ton pulling ability
- Interchangeable UnoLiner accessories
- Ideal for smaller workspaces
