Roll-Over Benches

CRS4000-RO

The UnoLiner CRS4000-RO chassis straightening bench with its 3-ton lifting capacity is a prime example of high-quality collision repair equipment. Its ergonomic bench height guarantees ease-of-use during chassis straightening, sanding, car body panel repair, bumper replacement, and regular maintenance. RO stands for roll over, which means the drive-on ramps have been omitted to save costs and space—especially useful when the bench is installed in-ground.

Features

- Multiple-angle 10-ton pulling ability
- Interchangeable UnoLiner accessories
- 3 ton lifting capacity
- Mechanical and hydraulic safety systems
- In-ground placement possible

Technical data

Bench frame length	4060	mm
Bench frame width	1040	mm
Min. bench height	145	mm
Max. bench height	1270	mm
Max. load weight	3000	kg
